PFF5-1902G

DESCRIPTION

FRONT CONTROL ARM TO CHASSIS CAMBER ADJUSTABLE BUSH

## **INSTALLATION GUIDE**

## Contents (parts per pack):

2 x Polyurethane A Bushes 2 x Polyurethane B Bushes

2 x Stainless Steel Sleeves 1 x Spanner

1 x Grease

Please read the complete fitting instructions and check package components before fitment.

These fitting instructions are to be used as a guide and in conjunction with workshop manual.

It is recommended that:

- -all work to be carried out by a licensed technician;
- -all safety precautions adhered to;
- -wheel alignment to be checked and adjusted as required after any suspension work.

All fasteners must be tensioned to manufacturer's torque settings.

## **Fitting Instructions:**

- 1. Remove original bush from arm.
- 2. Clean any dirt and corrosion from bore in arm.
- 3. Fit the polyurethane A bush into bore with the top facing towards the back of the vehicle, as shown in Figure 1.
- 4. Fit the polyurethane B bush into bore with the top facing towards the front of the vehicle, as shown in Figure 1.
- 5. Apply some provided grease to bore and mounting faces of each bush. Fit the stainless steel sleeve into bush with machined sleeve face facing forwards on vehicle (flush against polyurethane B bush) as shown in Figure 1.
- 6. For maximum camber use supplied spanner to rotate sleeve so that the bore is closest to centre of vehicle, as shown in *Figure 2*.
- 7. Refit arm. Tension all hardware to manufacturers recommended torque settings.
